*“...knowledge
and hands-on
experience has
proven critical
to the success
of improvement
initiatives.”*

Gerry Raubach
President / CEO

ISI Services is a consulting group focused on optimizing performance and improving customer satisfaction for all types of organizations. Our process-based approach to improvement attacks problems at the source and eliminates waste. ISI Services delivers the appropriate methods and applications to solve your complex issues. We are experts in:

- Lean Thinking
- Business strategy and planning
- Team training
- Facilitation services
- Wireless technologies and data services
- Organizational development
- Regulatory compliance issues
- Customized training programs

Our training programs include hands-on application for enhanced learning and immediate results. Companies learn to apply continuous improvement tools in their own processes during both workshops and in “rapid improvement events”, identifying and removing waste and other barriers to performance. This combination of knowledge and hands-on experience has proven critical to the success of improvement initiatives. Want even more impact? Let us customize our training modules to simulate processes your company works with every day. ISI Services programs are flexible and adaptable.

ISI Services can also help steer your organization down the path to improved performance by charting the right course with management and then aligning the correct activities to support the organization’s business plan and strategic objectives. No plan in place? Then ISI Services can help develop a vision for your organization that will drive performance. Key measures are reviewed regularly with management and adjusted as necessary to achieve objectives in the shortest possible time. Our goal is to help you exceed your customer’s expectations.

If you are serious about improving performance but are not sure where to start, ISI Services welcomes the opportunity to meet with you and discuss a plan of action that is best suited for your business. Please call (918) 280-9051 today to schedule a no-cost initial consultation or visit our website for more information.
